## Profile

---

Cloud Computing & DevOps Engineer, passionate about automating and modernizing systems. I design and optimize reliable and high-performance cloud environments while promoting collaboration and continuous improvement within teams.

## Experience

---

**HR Project Workflow - Com&Dev**, Cloud, DevOps & AI Engineer Feb 2025 – Sep 2025

- Designed and developed an intelligent web platform for recruitment and enterprise project management.
- Integrated AI feature for automatic CV parsing and candidate profile creation.
- Implemented full CI/CD pipeline including quality analysis (SonarQube), artifact management (Nexus), and automated deployment.
- Monitored infrastructure and applications using Prometheus and Grafana.

**Keywords :** Ruby on Rails, Angular, PostgreSQL, Mistral API, Jenkins, SonarQube, Nexus, Docker, Kubernetes, Prometheus, Grafana

**Automated CI/CD pipeline — Taremmant**, Cloud & DevOps Engineer Jun 2024 – Aug 2024

- Designed and automated CI/CD pipelines using Jenkins.
- Built and managed Docker images, published on DockerHub.
- Orchestrated multi-service architecture using Docker Compose.
- Implemented monitoring using Prometheus and Grafana.

**Keywords :** CI/CD, GitHub, Jenkins, Nexus, SonarQube, Docker, Docker Compose, Prometheus, Grafana

## Technical Projects

---

**EspritHub**, Deployed a full-stack web application on OpenStack

- Designed a Cloud infrastructure on OpenStack integrating Controller, Compute, and Storage nodes for full-stack deployment.
- Ensured scalability and monitoring with Prometheus and Grafana.

**Keywords :** OpenStack, Docker, Kubernetes, Ansible, Prometheus & Grafana, Azure

## Education

---

**National Engineering Degree in Computer Science**, ESPRIT

Sep 2020 – Oct 2025

**Baccalaureate in Experimental Sciences**, Kasserine Pioneer High School

Sep 2019 – Jun 2020

## Skills

---

**Programming Languages:** C, C++, Java, Ruby, Python

**Web & Frameworks:** HTML, CSS, JavaScript, Angular, Ruby on Rails, Spring Boot, NodeJS, ReactJS, ExpressJS

**Cloud & DevOps:** CI/CD, Git, Jenkins, Docker, Ansible, Kubernetes, Prometheus, Grafana, Azure

**Soft Skills:** Teamwork, Time Management, Problem Solving, Communication, Adaptability

## Certifications

---

- 🌟 Introduction to Microsoft Azure Cloud Services – Microsoft (Oct 2024)
- 🌟 Microsoft Azure Services and Lifecycles – Microsoft (Nov 2024)
- 🌟 Microsoft Azure Management Tools and Security Solutions – Microsoft (Nov 2024)

## Languages

---

**French:** B2 Level

**English:** B2 Level

**Spanish:** A1 Level
